

Testimonials

See what some of our Customers are saying about Energy Sentry...

“ *The company patiently helped us get comfortable with the system, both before we signed and since it's been installed. It is already saving us money and it's not even cooling season yet.* ”

Bill Cameron
WOW! Children's Museum

“ *The demand controller has definitely made my life easier. It takes care of the demand limiting automatically so that we don't have to attempt to watch the consumption ourselves, which did not work so well.* ”

Scott Cummings
United Church of Christ

“ *Brayden Automation was great to work with. The system went in smoothly and has worked perfectly since day one. In fact, I haven't even noticed that it was there... except for the savings!* ”

Don Geary
Great Basin National Park

“ *Brayden Automation's demand control system has been a lifesaver here for the residents. Most residents here live on fixed incomes and reducing costs is a benefit to everyone.* ”

Clarence Fuqua
Resident of Leisure World

“ *I would definitely recommend Brayden Automation's demand controllers. There have never been any problems with our controller. Anytime there was an issue, it was usually on our end, and Bill was right there to help us figure it out. It is very easy to use. It takes some time to figure out exactly what loads you want to control, but once it's set up it takes care of itself.* ”

Jimmie Wolfrum
Jim's Automotive Machine Shop

“ *We are thrilled with the savings that we are seeing on our electric rates. Thank you again for all that you did to help us.* ”

Pastor Steve Elmore
Journey Church of Windsor

Testimonials

“ When we find applications like this, where the demand is unusually high, we call Brayden Automation to see if they can help our member owners. We've done a number of projects with Brayden over the years and the systems continue to deliver excellent savings for the owners and benefits for our utility as well. ”

Kevin Robison
Member Services Representative
Mt. Wheeler Power

“ The device I bought some years ago from your company is working just fine and has allowed me to save a lot of money. Thank you! ”

Luis Balmori
Madero in Mexico City

“ When I speak with some of my neighbors, and they tell me they just paid for yet another tank of propane and that their yearly energy bills are in the \$4K range, I just keep quiet and say to myself, YES! My yearly bills for everything are in the range of \$2,400. And when talking to these same neighbors, my square footage is much larger than what they are heating. ”

Tom Harr
Residential Customer
Loveland, CO

“ I highly recommend Brayden Automation's Energy Sentry instrument for saving energy costs. Interestingly there has been absolutely no perceivable change in people's comfort. I've not had one complaint that the building is not cool enough from any church attendee. The folks at Brayden Automation have the expertise to help you save money each year by using their device. I'd recommend their services highly. ”

Chris Perciante
Faith Evangelical Church

“ I've used Brayden and the other guys. I highly recommend Brayden's superior product and excellent customer service. ”
